October 19, 2020

To Menard ISD Parents/Guardians/Students,

Menard ISD would like to inform our parents, guardians, and students that as of November 9, 2020 all students are required to attend class for Face-to-Face Instruction. November 9th begins our 3<sup>rd</sup> six weeks of instruction.

To receive the best possible instruction and meet requirements for advancing to the next grade level and graduating, students are best served on campus.

Menard ISD will continue to offer remote learning to students that are quarantined or have a medical condition restricting them from attending. Both conditions require a doctor's note. If you feel that your child has a condition that requires them to receive virtual learning, then please contact the campus principal.

In the case of a COVID-19 outbreak, Menard ISD is prepared to offer remote instruction to all students.

Menard ISD will continue to follow all the COVID-19 guidelines, including screening and the wearing of the masks during the school day.

Respectfully,

Amy Bannowsky  
Menard ISD
